

CastleMoore Saver Portfolio

MAY 2022

Investment Objectives

- The emphasis is on safety of principle and income with expectations of capital gains.

Investment Strategies

- Hold longer term maturities when interest rates are falling and shorter term maturities when interest rates are rising. Investable assets include: CD\$ denominated fixed Income (Fed, Prov, "BB" Corp), convertibles, and Index-linked notes.

What are the Risks?

- Main risk of the portfolio is Interest Rate Risk.

Who Should Invest?

- This portfolio is appropriate for GIC and bond investors who are not interested in the stock market and/or for the "fixed income" portion of a larger portfolio.
