

CastleMoore Saver Portfolio

December 2023

Investment Objectives

- Preservation of capital with interest income, and the potential to generate capital gains when interest rates move lower.

Investment Strategies

- Invest in assets with longer-term maturities when interest rates are falling and shorter-term maturities when interest rates are rising. Investable assets include Canadian denominated fixed Income (Fed, Prov, “BB” Corp), convertibles, and index-linked notes.

What are the Primary Risks?*

- Changes to interest rates.

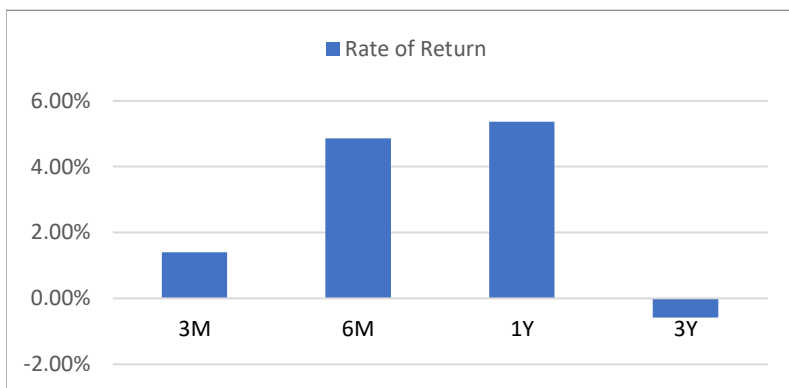

Who Should Invest?

- This portfolio is appropriate for GIC and bond investors and/or for the “fixed income” portion of a balanced portfolio.
